Mr. Darian Lopez Garcia has over five years of verifiable experience operating flatbed trucks on interstate routes across the United States. He has demonstrated a strong sense of responsibility and professionalism in all aspects of transportation operations. His experience includes operating flatbed units with loads that require advanced securement techniques such as chains, straps, and tarps. He is proficient in load inspection, weight distribution, and cargo securement to ensure safety and regulatory compliance. Mr. Lopez Garcia performs daily vehicle inspections, maintains detailed driver logs, and adheres to FMCSA standards.

In addition to his driving experience, he coordinates with brokers and dispatchers to ensure on-time deliveries, compliance with customer requirements, and operational efficiency. He manages routes, monitors driver hours, and assists in scheduling preventive maintenance to maintain vehicle reliability.

Mr. Lopez Garcia is also committed to safety and risk management. He participates in regular safety meetings, promotes defensive driving practices, and ensures full compliance with DOT and FMCSA regulations. He uses GPS tracking and ELD systems to enhance accountability and operational transparency, consistently demonstrating dedication to high safety and performance standards.
